

2015 MODEL FACT SHEET

the
Luxury Spa
Line

Polo • Adelphi • Putnam • Canfield • Lincoln • Empire • Broadway

The 2015 Luxury Spa Line provides the Saratoga Dealer the most potential in making higher gross dollars based on the product's built-in multiple value features. To create even more value in your presentation, we have added two new features to select Luxury models: the NEW CFE™ Deflector Jet and the NEW Exterior Corner Lighting. These two new features will be standard on the Canfield, Empire, Lincoln and Broadway. As a reminder for the Luxury Spa Line in 2014 we added Splash Lighting as a standard feature. We also reintroduced the Polo into the Luxury Spa Line and to maintain the Luxury Spa Line performance level, we increased the pump size on the Polo, Adelphi, Putnam and Canfield.

Pumps Pumps are being reviewed on each model to provide optimum performance that matches jet count. The Pump GPM is: **Polo & Adelphi** 1@240 / **Putnam** 2@195 each / **Canfield** 2@240 each / **Lincoln and Empire** 1@240 & 2@195 / **Broadway** 2@240 & 1@175.
All Jet Pumps Updated to 56 Frame except 110/220v models. These changes were made in 2014.

Jets The CFE™ Power Stream® Deflector Jet will be introduced on the Canfield, Empire, Lincoln and Broadway. This jet adds 2 new therapy options by rotating the exterior ring of the Power Stream® Jet. It will offer the Standard ribbon of water, a "ramped up" ribbon or a Split ribbon of water creating a variety of passive stimulations from the jet.

We have also switched to thread-in jets in place of the pop out versions through the majority of the product.

Pack VS Packs, No Changes from 2014

Topside No Change from 2014

Lighting In 2015 we introduced Exterior Lighting on all four underside corners of the Canfield, Empire, Lincoln and Broadway. We will now be offering this lighting on ALL the Luxury Spa Models! We will be using our Splash Lighting Facets placed and protected under each corner to create exterior ambient lighting. We also are now lighting the Vortex Return Jet on the Luxury models to add one more point of light to our Luxury Splash Lighting System. Introduced in 2014, the Luxury Splash Lighting System is **STANDARD** on our Luxury models. Luxury Splash Lighting Includes: LED Topside, LED Blast, LED Skimmer Box, LED Vortex Jet and LED Waterfall plus LED Facets evenly distributed around the waterline). LED Facet numbers will vary based on models

Music Luxury Sounds is: Optional Bluetooth Streaming Keypad with Dual Pop-Up Speakers and Subwoofer System. Music currently not available on the Polo & Adelphi.

Laminar Jets 2 Available with LED's Lincoln and Empire only

Cabinet WeatherAll™ Mahogany and Grey. We will be using a new Black Shell Trim on Mahogany Cabinets and Gray Trim on the Grey Cabinets starting 6/1/15.

Standard Colors **Shell** - New for 2015: Mediterranean Sunset, Espresso, Cosmic Swirl, Mayan Copper and Ocean Wave. We will also continue to offer the Sand shell for a total of six shell color choices for 2015.

2015 MODEL FACT SHEET

Crystal Springs • Peerless Springs • Island Springs • Paradise Springs • Glacier Springs

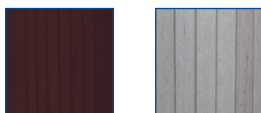

The Geyser Spas Line provides 110v options, a large open seated round spa and other unique designs. These spas were created to fit the more traditional style and use of the original "Hot Tubs" where the priority is on hot water therapy instead of hydrotherapy. The Geyser Spas Line is perfect for yards with size or design constraints. It works for the one person model or for the large, round, open seated seven person spa.

- Pumps** No other changes from 2014. All Jet Pumps Updated to 56 Frame except 110/220v models
- Jets** No Jet Style changes from 2014. All jets are now threaded instead of pop out styling
